DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims **1-9**, drawn to a ***Non-Woven Fabric Filter*** and a ***Process for Fabricating a Non-Woven Fabric Filter*** classified in class 156, subclass 69.
- II. Claims **10-11**, drawn to a ***Wastewater Treatment Process with Activated Sludge***, classified in class 210, subclass 767.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group II and Group I are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process, such as the filtration of air.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. Daniel R. McClure on September 28, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. At that time, Mr. McClure indicated that an election was made in June 2005, in response to a telephone call from the undersigned Examiner. The Examiner has since reconsidered the Restriction Requirement, as set forth above. The Examiner apologizes for any inconvenience this may have caused.

Art Unit: 1724

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Robert J. Popovics at telephone number (571) 272-1164.
